

Pilot Seminar Series

*Join us to hear results and future research plans from recent
HERCULES Pilot Program awardees.*

Tuesday, February 25th, 12:00-12:50 pm

Claudia Nance Rollins 4001

"Perinatal Secondhand Smoke Exposures and Infant Cognitive and Neural Outcomes"

Daniel Dilks, PhD

Associate Professor, Psychology, Emory College

*Dr. Dilks measured exposure to secondhand smoke before
and after birth and its effects on the development of infants'
brains and behavior.*

"Discovering Early-Warning Indicators for Carcinogenesis: A Pilot Study with Ionizing Radiation-Induced Oncogenic Transformation of Thyroid Epithelial Cells"

Qiang Zhang, PhD, Associate Professor, Environmental Health, RSPH

Ya Wang, MD, PhD, Professor, Radiation Oncology, SOM

*Drs. Zhang and Wang examined changes of key genes involved in the development
of thyroid cancer from radiation exposure and explored experimental and
computational techniques to capture these changes.*

****Lunch will be served****
