- Discussion of COVID-19 Pandemic Breast Cancer Consortium recommendations

TARGET AUDIENCE

Physicians, Nurses, Physician Assistants,
Medical Technicians, Community

CONTINUING MEDICAL EDUCATION CREDITS

This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint providership of (Emory University School of Medicine) and (Sisters by Choice). The Emory University School of Medicine is accredited by the ACCME to provide continuing medical education for physicians. The Emory University School of Medicine designates this live activity for a maximum of *3.75 AMA PRA Category 1 Credit(s)™*. Physicians should only claim credit commensurate with the extent of their participation in the activity. Emory Nursing Professional Development Center (ENPDC) is accredited as a provider of continuing nursing education by the American Nurses Credentialing Center's Commission on Accreditation. Attendees to this CNE activity will be awarded contact hours by ENPDC. No conflict of interest has been found with the speaker(s) for the CNE activity nor with the members of the planning committee.

ABOUT SISTERS BY CHOICE

Sisters By Choice (SBC) was founded in 1989 by Ragsbert F. Phillips-Reed, MD, FACS, an Atlanta based breast surgical oncologist. Early on, Dr. Phillips-Reed saw the need for programs that increased the public's knowledge and awareness of breast cancer as a means to decrease mortality and morbidity rates. Dr. Phillips-Reed also wanted to improve the delivery of breast health services and support services. Initially formed as a breast cancer support group, SBC has evolved into a multi-faceted organization serving women in Georgia. Realizing there are health disparities surrounding access to quality breast care, SBC launched The Mobile Breast Clinic in 2015. This clinic facilitates remote screening and diagnostic services, treatment referrals, education and access to clinical trials to medically under-served women. For 30 years, SBC has provided free breast health seminars and symposiums that assemble world-renowned medical experts delivering state-of-the-art breast cancer information.

Breast cancer is now the leading cause of cancer death for black women in six states including Georgia.
