GENERAL INFORMATION

COURSE DESCRIPTION

Clinical Practice Updates in Hemostasis and Thrombosis is designed to provide practitioners with information on the diagnosis and management of inherited and acquired hemostatic and thrombotic disorders along with new medication updates.

TARGET AUDIENCE

This educational activity targets practicing hematologists/oncologists who diagnose and treat patients with congenital and acquired hemostatic and thrombotic disorders as well as interested internists.

LEARNING OBJECTIVES

Upon completion of this education activity, learners should have the ability to:

- Describe the hematological impact of COVID-19 infection.
- Be able to institute clinical practices that reduce bleeding risk in patients treated with oral anticoagulants.
- Describe current guidelines for treatment of von Willebrand disease.
- Describe and apply best practices for long-term follow-up of thrombotic thrombocytopenia purpura.
- Understand the role of genetic testing in management of complement-mediated HUS.

CONTINUING EDUCATION CREDIT

The Emory University School of Medicine designates this live activity for a maximum of 4.00 *AMA PRA Category 1 Credits*[™]. Physicians should only claim credit commensurate with the extent of their participation in the activity.

The Emory University School of Medicine is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians

Emory Nursing Professional Development Center (ENPDC) is accredited as a provider of continuing nursing education by the American Nurses Credentialing Center's Commission on Accreditation. Attendees to this CNE activity will be awarded 4.00 contact hours by ENPDC. No conflict of interest has been found with the speaker for this CNE activity nor with the members of the planning committee.

Georgia Society of Health-System Pharmacists is accredited by the Accreditation Council for Pharmacy Education (ACPE) as a provider of continuing pharmacy education. Participants of the session who complete the evaluation and provide accurate NABP e-Profile information will have their credit for up to 4 contact hours (0.4 CEU) submitted to CPE Monitor as early as 14 days after the event and no later than 60 days after the event.
