

Know our risk!

Black liver cancer patients have the **highest mortality rate** of any ethnic group.

The number of African Americans being diagnosed with liver cancer is on the rise.

The best way to stop liver cancer is to prevent it.

“The incidence of Liver Cancer is increasing in the black community. Healthcare professionals must engage patients based on their diagnosis and ethnicity because every patient is different.”

*Dr Olumide Gbolahan
Assistant Professor
Department of Hematology and Medical Oncology
Emory University School of Medicine*

Blue Faery The Adrienne Wilson Liver Cancer Association is a nonprofit with a mission to prevent, treat, and cure primary liver cancer through research, education, and advocacy.

Sponsored by: AstraZeneca, Exelixis, Eisai, Merck, and Genentech.

In collaboration with our community partner, Delta Research and Educational Foundation (DREF).
