

## Cancer Imaging Seminar

# Vevo Imaging System Applications in Cancer Research Mouse Models

*Learn about the possibilities of ultra-high resolution, noninvasive, in vivo imaging for cancer research*

**Speaker:** Nuno Sacadura, MSc  
**Date:** Tuesday, March 21, 2023  
**Time:** 9 am  
**Location:** Winship C5012 Kauffman Auditorium  
1365 Clifton Road NE, Bldg C

### Seminar Topics

- Early Tumor/Disease Detection
- Quantification of Tumors in 2D & 3D (high resolution images and/or videos)
- Longitudinal Studies of Orthotopic and Subcutaneous Tumors
- Visualization and quantification of angiogenesis, vasculature, and perfusion
- Image-Guided Injections of cell suspensions
- Measuring Hypoxia
